Here is the message that I sent to our REOC and senior management.

I've reviewed the H&S requirements for those employees listed below. I understand that these employees have deployed in support of the Gold King Mine Spill response prior to informing the H&S Office. Below are the results of their H&S programmatic review.

Jason, Kendra, and Jeff,

The numbers we have for EPA personnel currently (8/11/15) in the field:

R8 24

R6 21

R9 2

We don't have a list of these employees.

Wes would like to know if all these have their H&S training and medical surveillance.

Please confirm if this is true, or provide the number of exceptions.

Thanks,

David Wynn
